Workstation

Thunderbolt support

Workstation

Improved emoji support

The Noto Color Emoji font is now the default for displaying Emoji on Fedora Workstation. This provides support for Unicode 10.0 emoji, including T-Rex (🦖), Hedgehog (🦔), Broccoli (🥦), and Curling Stone (🥌).

Unicode 10.0 emoji

Workstation

- VirtualBox Guest Additions
- Fedora 28 Workstation no longer set a root password

Workstation

- Third-Party Repositories (Google Chrome, PyCharm, NVIDIA, Steam)
- Improved battery life
- GNOME 3.28 (Files, Contacts, Calendar, Clocks and the on-screen keyboard)
- Thunderbolt support
- Unicode 10.0 emoji
- VirtualBox Guest Additions
- Fedora 28 Workstation no longer set a root password

Server

- Modularity
- Aarch64

Server

in Fedora 28 Server

Server

- too fast / too slow
- Not Software Collections
- Not container
- ``dnf module list``
- ``sudo dnf module install nodejs:8/default``
- ``sudo dnf module remove nodejs:8/default``

Server

Fedora Modularity

Atomic

- Atomic Host automatic updates
- Kubernetes 1.9 and the podman tool

Audacity 轻松降噪教程

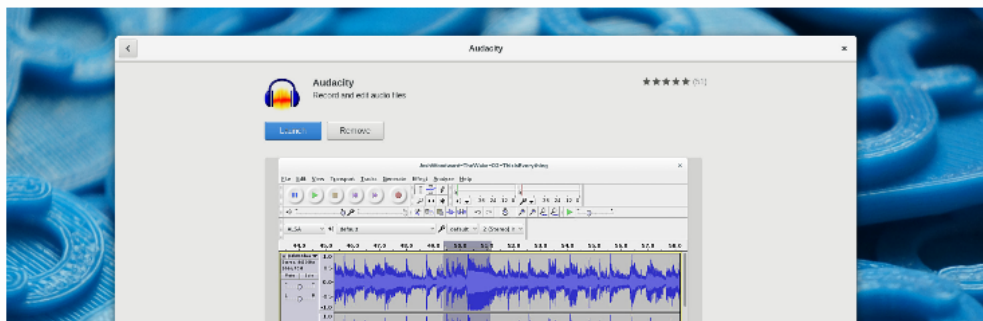

May 22, 2018

本文翻译自 [Ryan Lerch](#) 的文章 [Audacity quick tip: quickly remove background noise](#)。

当在笔记本电脑上录制声音时——比如最起码的简单录屏——许多用户通常会使用内置麦克风。但是，这些小型麦克风也会捕获很多背景噪音。本文就来教大家在 Fedora 中使用 [Audacity](#) 时如何快速剔除音频文件中的背景噪音。

安装 Audacity

Fedora 中的 Audacity 是一款用于混音、剪接及音频文件编辑的应用。它在 Fedora 上开箱即用，可以支持各种格式——包括 MP3 和 OGG。我们可以从软件中心安装 Audacity。

How to contribute

- Upstream
- FZUG repo packaging
- FZUG blog
- Design/Product Manager/Operation

What is Fedora?

- GNU/Linux Distribution.
- Community.
- 100% Free & Open.
- Innovative.
- Stable.
- Secure.

Our Mission

The Fedora Project's mission is to lead the advancement of free and open source software and content as a collaborative community.

The Four Foundations

Why join

- Help create something useful for everyone to enjoy.
- Develop your skills further.
- Get to know and work with people from all over the globe.
- If you're only looking to make money, then this is probably not for you!

Quick Steps to Join

- Start by creating a Fedora account. See join.fedoraproject.org
- Find a team or project you're interested in. Join their mailing list and send an introduction e-mail. Then start working on something.
- Read the corresponding guidelines.
- Keep up with the latest news around Fedora.
- Don't be afraid to ask questions!
